

Dear Parents/Guardians,

I am an Assistant Manager from the Stop & Shop located at 40 Furlong Drive in Revere. We have been launching the A+ School Rewards program since 2005, in which over \$16 million has been donated to community schools participating in the A+ School Rewards program. Stop & Shop is proud to once again offer this simple fundraising program to schools in our area, donating another \$2.45 million for this year's program.

I have sent attachments to the principal introducing A+ School Rewards and to let you know how you can support your school to benefit from this incredible program. All you need to do is visit our website and with your Stop & Shop Card number, create an online account and register your card to your school ID code (03460305). Then each time you shop at a Stop & Shop store between October 6, 2017 and March 15, 2018, your school will earn points every time your supporters shop! These points will become real cash that your school can use to purchase things like books, musical instruments, new technology, or any other educational materials your children need.

Please spread the word. Encourage everyone you know in this area - grandparents, aunts, uncles, friends and neighbors - to participate by signing up and designating your school to receive their points. At the end of the program, your school will receive a check for the total amount earned. You can even track your school's progress by logging into your on-line account.

Any questions feel free to either email myself or my Front End Manager Rachel Griffin. We look forward to hearing from you!
